MARKET ANNOUNCEMENT

South Pacific Stock Exchange, Suva

Subject: AQUASAFE® HELPS FRU

AquaSafe® and Pleass Global Limited are pleased to announce the extension of their sponsorship agreement to fund the FRU and supply AquaSafe® Natural Artesian water to the Fiji Rugby Union for the next two years. This was jointly announced by Pleass Managing Director Warwick Pleass and FRU's CEO Manasa Baravilala today in Walu Bay. Pleass has boosted the sponsorship with an undisclosed level of funding.

Mr. Pleass said at AquaSafe® we believe in promoting the benefits of a healthy, active lifestyle and forging a strong link between sports performance and hydrating with quality safe water. It's a sad fact that most people in Fiji, and especially children, don't drink enough safe water nor participate regularly in active sport or exercise. By showing our support towards the development of rugby in Fiji, we hope to raise awareness about the many benefits of drinking water and getting involved in sport at any level.

We hope this expression of faith in, and support of, Fiji rugby helps the FRU to represent all of the citizens of Fiji.

The two year deal will see AquaSafe® provide water for FRU as well as keeping the Fiji sevens and the fifteens teams properly hydrated during matches and training.

AquaSafe® remains the official water for Fiji Rugby. Lako Viti Lako!

End of announcement.

Warwick Pleass
